**Women, Writing and Religion in England and Beyond, 650-1100** - Diane Watt - 2019-12-12
Women's literary histories usually start in the later Middle Ages, but recent scholarship has shown that actually women were at the heart of the emergence of the English literary tradition.
Women, Writing and Religion in England and Beyond, 650–1100 focuses on the period before the so-called 'Barking Renaissance' of women's writing in the 12th century. By examining the surviving evidence of women's authorship, as well as the evidence of women's engagement with literary culture more widely, Diane Watt argues that early women's writing was often lost, suppressed, or deliberately destroyed. In particular she considers the different forms of male 'overwriting', to which she ascribes the multiple connotations of 'destruction', 'preservation', 'control' and 'suppression'. She uses the term to describe the complex relationship between male authors and their female subjects to capture the ways in which texts can attempt to control and circumscribe female autonomy. Written by one of the leading experts in medieval women's writing, Women, Writing and Religion in England and Beyond, 650–1100 examines women's literary engagement in monasteries such as Ely, Whitby, Barking and Wilton Abbey, as well as letters and hagiographies from the 8th and 9th centuries. Diane Watt provides a much-needed look at women's writing in the early medieval period that is crucial to understanding women's literary history more broadly.

Early Modern Women's Manuscript Writing - Jonathan Gibson - 2017-03-02
Because print publishing was often neither possible nor desirable for women in the early modern period, in order to understand the range of writing by women and indeed women's literary history itself, it is important that scholars consider women's writing in manuscript. Since the body of critical studies on women's writing for the most part prioritizes print over manuscript, this essay collection provides an essential corrective. The essays in this volume discuss many of the ways in which women participated in early modern manuscript culture. The manuscripts studied by the contributors originated in a wide range of different milieux, including the royal Court, the universities, gentry

The Politics of Early Modern Women's Writing - Danielle Clarke - 2014-06-11
The Politics of Early Modern Women's Writing provides an introduction to the ever-expanding field of early modern women's writing by reading texts in their historical and social contexts. Covering a wide range of forms and genres, the author shows that rather than women conforming to the conventional 'chaste, silent and obedient' model, or merely working from the 'margins' of Renaissance culture, they in fact engaged centrally with many of the major ideas and controversies of their time. The book discusses many previously neglected texts and authors, as well as more familiar figures such as Mary Sidney, Countess of Pembroke, Isabella Whitney and Lady Mary Wroth, and draws circulation in the production of meaning. The Politics of Early Modern Women will be of interest both to those encountering this material for the first time, and to students and scholars working in the fields of women's writing, gender studies, history and literature.

_Early Modern Women's Writing and Sor Juana Inés de la Cruz_ - Stephanie Merrim - 1999

This book maps the field of seventeenth-century women's writing in Spanish, English, and French and situates the work of Sor Juana more clearly within that field. It holds up the multi-layered, proto-feminist writings of Sor Juana as a meaningful lens through which to focus the literary production of her female contemporaries. Merrim’s book advances the integration of Hispanic women authors and women's issues into the panorama of early modern women's writing.

Sor Juana and her sister writers. Early modern women writers whose works are explored include Marie de Gournay, Margaret Fell Fox, Catalina de Erauso, Maria de Zayas, Ana Caro, Mme de Lafayette, Anne Bradstreet, St. Teresa, and Margaret Lucas Cavendish. Merrim's study provides a full-bodied picture of the resources that the cultural and historical climates of the seventeenth century placed at the disposal of women writers, the manners in which women writers instrumentalized them, the building blocks and concerns of early modern women's writing, and the continuities between early modern and modern women's writing. Written in an engaging, clear manner, this innovative study will be of interest not only to Hispanists but also to scholars in early modern studies, women's studies, history, and comparative literature.

In a famous passage in A Room of One's Own, Virginia Woolf asked 'why women did not write poetry in the Elizabethan age'. Early Modern Women's Writing - Martine van Elk - 2017-01-09
This book is the first comparative study of early modern English and Dutch women writers. It explores women’s rich and complex responses to the birth of the public sphere, new concepts of privacy, and the ideology of domesticity in the seventeenth century. Women in both countries were briefly allowed a public voice during times of political upheaval, but were increasingly imagined as properly confined to the household by the end of the century. This book compares how English and Dutch women responded to these changes. It discusses praise of women, marriage manuals, and attitudes to female literacy, along with female artistic and literary expressions in the form of painting, engraving, embroidery, print, drama, poetry, and prose, to offer a rich account of women’s contributions to debates on issues that mattered most to them.

**Genre and Women's Life Writing in Early Modern England** - Michelle M. Dowd -

By taking account of the ways in which early modern women made use of formal and generic structures to constitute themselves in writing, the essays collected here interrogate the discursive contours of gendered identity in sixteenth- and seventeenth-century England. The contributors explore how generic choice, mixture, and revision influence narrative constructions of the female self in early modern England. Collectively they situate women's life writings within the broader textual culture of early modern England while maintaining a focus on the particular rhetorical devices and narrative structures that comprise individual texts. Reconsidering women's life writing in light of recent critical trends-most notably historical formalism-this volume produces both new readings of early modern texts (such as Margaret Cavendish's autobiography and the diary of Anne Clifford) and a new understanding of the complex relationships between literary forms and early
structures that comprise individual texts. With new critical methods to make innovative connections between canonical and non-canonical writing; in so doing, it helps to shape the future of scholarship on early modern women.

A History of Armenian Women's Writing: 1880-1921 introduces the reader to the wealth and diversity of women's writing in Armenian in the late nineteenth and early twentieth centuries. The volume focuses on six Armenian women writers—Srpouhi Dussap, Sibyl, Mariam Khatisian, Marie Beylerian, Shushanik Kurghinian and Zabel Yesayian and these authors' novels, short stories, poems and essays. The study contends that Western and Eastern Armenian women writers, while not displaying a uniformity of opinion and vision, nevertheless found inspiration in the activism, writings and arguments of one another and form a literary genealogy of women's writing in Armenian. The study has several objectives. For general readers and those interested primarily in the historical account it provides a chronological description of the formative period of modern Armenian women's writing beginning in 1880 with the publication of a series of articles on women's education and employment by Srpouhi Dussap and concludes with the physical dislocations and psychological traumas of the Armenian Genocide in 1915 and the fall of the first independent Republic of Armenia in 1921. On another level the book concentrates on disentangling the
arguments of one another and form a literary Armenian women's proper sphere. The author argues that the role of the Armenian woman was central to debates about national identity, education, the family and society by Armenian writers and women writers sought to participate in and guide this discourse through literary texts.

**Medieval Women's Writing** - Diane Watt - 2013-04-18

Medieval Women's Writing is a major new contribution to our understanding of women's comprehensive account to date, it includes writings in Latin and French as well as English, and works for as well as by women. Marie de France, Clemence of Barking, Julian of Norwich, Margery Kempe, and the Paston women are discussed alongside the Old English lives of women saints, The Life of Christina of Markyate, the St Albans Psalter, and the legends of women saints by Osbern Bokenham. Medieval Women's Writing addresses these key questions: Who were the first women authors in the English canon? What do we mean by women's writing in the Middle Ages? What do we mean by authorship? How can studying medieval writing contribute to our understanding of women's literary history? Diane Watt argues that female patrons, audiences, readers, and even subjects contributed to the production of texts and their meanings, whether written by men or women. Only an understanding of textual production as collaborative enables us to grasp fully women's
What do we mean by women's writing in the Middle Ages? What do we mean by authorship? How can studying medieval writing contribute to our understanding of women's literary history? Diane Watt argues that female patrons, audiences, readers, and even subjects contributed to the production of texts and their meanings, whether written by men or women. Only an understanding of textual production as collaborative enables us to grasp fully women's engagement with literary culture. This radical rethinking of early women's literary history has major implications for all scholars working on medieval literature, on ideas of authorship, and on women's writing in later periods. The book will become standard reading for all students of these debates.

Early Modern Women's Writing and the Rhetoric of Modesty - Patricia Pender - 2012-04-02
"Why are the most famous examples of early modern women's writing professions of inadequacy, apology, and self-denigration? Why have we so frequently read these pronouncements as straightforward autobiographical assertions? Modern Women's Writing and the Rhetoric of Modesty revisits the classic, even clichéd trope of the woman writer's humility, rereading this familiar pose of abjection through the lenses of early modern rhetorical practice, protocols of early modern printed publication, and debates in contemporary feminist theory. In the process, the book provides provocative new readings of five now-prominent women writers Anne Askew, Katharine Parr, Mary Sidney Herbert, Aemilia Lanyer and Anne Bradstreet revealing the surprisingly assertive and ambitious subtexts of their conventional expressions of modesty. These readings challenge long-held assumptions of early modern women's authorial self-fashioning and examine the ways in which the figure of the woman writer and the category of gender continue to hold crucial, determining and fetishized positions in our prevailing models of literary history."--Back cover.

Until recently, history writing has been understood as a male enclave from which women were restricted, particularly prior to the nineteenth century. The first book to look at British women writers and their contributions to historiography during the long eighteenth century, British Women Writers and the Writing of History, 1670-1820, asks why, rather than writing history that included their own sex, some women of this period chose to write the same kind of history as men—one that marginalized or excluded women altogether. But as Devoney Looser demonstrates, although British women's historically informed writings were not necessarily feminist or even female-focused, they were intimately involved in debates over and conversations about the genre of history. Looser investigates the careers of Lucy Hutchinson, Catharine Macaulay, Hester Lynch Piozzi, and Jane Austen and shows how each of their contributions to historical discourse differed greatly as a result of political, historical, religious, class, and generic affiliations. Adding their contributions to accounts of early modern writing refutes the assumption that historiography was an exclusive men's club and that fiction was the only prose genre open to women.

Nineteenth Century - Juliet Shields - 2021-07-29
Walter Scott's tales of chivalry and adventure inaugurated a masculinized Scottish romance tradition that celebrated a sublime and heroic version of Scotland. Nineteenth-century Scotswomen responded to Scott's influence by establishing a counter-tradition of unromantic or even anti-romantic representations of Scotland. Their novels challenged the long-standing claim that Scotland lacked any equivalent to the English realist novel. In turning from the past to the present and from the sublimity of Scott's Highland landscapes to farmhouses, factories, and suburban villas, Scottish women writers brought romance to everyday life, illuminating the magnificence of the mundane. writing in a specifically Irish context. By shifting genres, from letters to book marginalia, and a number of different women, from now-canonical life writers such as Mary Rich and Ann Fanshawe to far less familiar figures such as Eliza Blennerhassett and the correspondents and supplicants of William King, archbishop of Dublin. The writings of the Boyle sisters and the Duchess of Ormonde—women from the two most important families in seventeenth-century Ireland—also receive a thorough analysis. These innovative and nuanced scholarly considerations of the powerful influence of Ireland on these writers’ construction of self, provide fresh, illuminating insights into both their writing and their broader cultural context.

Providing an overview of the history of writing by women in the period, this 2001 Companion establishes the context in which this writing emerged, and traces the origin of the terms which have traditionally defined the debate. It includes essays on topics of recent concern, such as women and war, erotic violence, the liberating and disciplinary effects of religion, and examines the work of a variety of women writers, including Harriet Beecher Stowe, Rebecca Harding Davis and Louisa May Alcott. The volume plots new directions for the study of American literary history, and provides several valuable tools for students, including a chronology of works and suggestions for further reading.

Virginia Cox documents this tradition and both explains its character and scope and offers a new hypothesis on the reasons for its emergence and decline. Cox combines fresh scholarship with a revisionist argument that overturns existing historical paradigms for the chronology of early modern Italian women’s writing and questions the historiographical commonplace that the tradition was brought to an end by the Counter Reformation. Using a comparative analysis of women's activities as artists, musicians, composers, and actresses, Cox locates women's writing in its broader contexts and considers how gender reflects and reinvents conventional narratives of literary change.

**Religion, Reform, and Women's Writing in Early Modern England** - Kimberly Anne Coles - 2008-01-17
Long considered marginal in early modern culture, women writers were actually central to the development of a Protestant literary tradition in England. Kimberly Anne Coles explores their contribution to this tradition through thorough archival research in publication history and book circulation; the interaction of women's texts with those written by men; and the traceable influence of women's writing upon other contemporary literary works. Focusing primarily upon Katherine Parr, Anne Askew, Mary Sidney Herbert, and Anne Vaughan Lok, Coles argues that the writings of these women were among the most popular and influential works of sixteenth-century England. This book is full of prevalent material and fresh analysis for scholars of early modern literature, culture and religious history.

Extrait de la couverture : "Here, for the first time, is a book that brings women's writings out of exile to rethink anthropology's purpose at the end of the century. As a historical resource, the collection undertakes fresh readings of the work of well-known women anthropologists and also reclaims the writings of women of color for anthropology. As a critical account, it bravely interrogates the politics of authorship. As a creative endeavor, it embraces new Feminist voices of ethnography that challenge prevailing definitions of theory and experimental writing."
