The Huguenot Population of France, 1600-1685

Philip Benedict - 2013

This volume offers an encompassing portrait of the Huguenots, among the best known of early modern religious minorities. It explores the political development and suggests the interpretative frameworks that scholars have advanced for understanding the Huguenot experience.

The Protestant International and the Huguenot Migration to Virginia - David E. Lambert - 2010

In 1608, King James III of Scotland and England, as攫取unreched, and others uniting themselves to benefit the Protestant cause, granted land. However, the wars unleashed a vigorous Catholic reaction that extinguished Protestant hopes of ultimate survival. This offensive triggered vacillation among the provinces, paralyzing Huguenot communities and sending many Protestant churches in northern France into terminal decline. But French Protestantism was never a uniform phenomenon and events in the new world of international Calvinism, reflecting upon the distinctive cultural elements that characterized Calvinism in southern France.

The Huguenot Population of France, 1600-1685

Philip Benedict, Eric C. Klingelhofer - 1991

This volume offers an encompassing portrait of the Huguenots, among the best known of early modern religious minorities. It explores the political development and suggests the interpretative frameworks that scholars have advanced for understanding the Huguenot experience.

The Huguenots

A Companion to the Huguenots

Malcolm Walsby - 2020

The Huguenots

History of the Huguenots - Geoffrey Treasure

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is reproduced, and made generally available to the public. Beyond Belief - Christine Sampe Wilson - 2011-06-14 Beyond Belief: Surviving the Revocation of the Edict of Nantes in France examines the degree to which the Revocation of the Edict of Nantes was a negotiated event—which called upon individuals and communities to find ways to exist without abandoning the faith of their fathers—and at the same time illuminates the limits of the absolutist state whose policies were not always supported by officials on the regional and local level. The Huguenots: History and Memory in Transnational Context - David J. Brim - 2011-02-28 This book addresses the Huguenot historiography, the formation of identity, both among ethnic Huguenots and in their host communities, in Britain, the Netherlands, Germany; in the Americas. Brim - 2011-02-28 This book addresses the Huguenot historiography, the formation of identity, both among ethnic Huguenots and in their host communities, in Britain, the Netherlands, Germany; in the Americas. The Huguenots - Rebecca Jane McKie - 2013 Scholars from France and from countries of the Huguenot Refuge examine the situation of French Protestants before and after the Revocation of the Edict of Nantes, in France and in the countries to which many of them moved during the great exodus which followed the Edict of Fontainebleau. Covering a period from the end of the sixteenth to the beginning of the eighteenth century, the volume examines aspects of life in France, from the declaration of religious liberty to the complex ideas and practices that were articulated by the Huguenot church. Louis XIV - David J. Sturdy - 1998-07-15 This book provides a concise study of the defining aspects of the reign of Louis XIV. The nature of French monarchy, methods of government, Louis's relationship to his subjects and to the churches, the organisation of cultural life, and France's relations with the rest of Europe are all considered. Dr. Sturdy relates Louis and his reign to the key political and cultural themes of seventeenth-century France, and indicates some of the major problems in interpretation which still confront historians. Storied Places - Virginia Reinburg - 2019-04-30 Pilgrim shrines were places of healing, holiness, and truth in early modern France. This book explains how this phenomenon operated in France and its consequences - both before and after the Revocation. It offers insights into individuals and groups, from grandees such as the Duke of Orleans and France's loyal Protestant sovereign, the King of Navarre, to ordinary Huguenots and businessmen and communities choosing their destination for economic as well as religious reasons, to women and children moving across European frontiers or groups seeking refuge in the islands of the Indian Ocean. The information-gathering activities of the French authorities and the reception of problematic groups such as the Camisard prophets among exile communities are examined, as well as the significant contributions which Huguenots made to medicine, as seen in the case of Louis XIV. The Politics of Religion in Early Modern France - Joseph Bergin - 2014-11-25 Rich in detail and broad in scope, this magisterial book is the first to reveal the interaction of politics and religion in France during the crucial years of the long seventeenth century. Joseph Bergin begins with the Wars of Religion, which proved to be longer and more violent in France than elsewhere in Europe. In 1621 he left a legacy of unresolved tensions between church and state with serious repercussions for each. He then draws together a series of unrelated phenomena—both political and ideological—that challenged French rulers thereafter, arriving at an original and comprehensive view of the close interrelations between the political and spiritual spheres of the time. The author considers the powerful religious dimension of French royal power even in the seventeenth century, the shift from absolutist toleration to the toleration of religious diversity over issues of state importance, and the role of the Catholic church and the power of the pope over secular rulers, and a wealth of other interconnected topics. Exchanges have always had more than economic significance: values circulate and encounters become institutionalized. This volume explores the changing meaning of the circulation of second-hand goods from the time of the Enlightenment to the present day. It describes the actors of the market - official entities such as corporations, recognized professions, and established institutions as well as subversive ones such as second-hand dealers - and the goods that not only provide for numerous intermediaries but also include the many men and women who, as sellers or buyers, use these circulations on countless occasions are also examined.

Alternative Exchanges - Laurence Fontaine - 2008-04-30

Heroes, Saints, and Ordinary Morality - Andrew Michael Fischer - 2003-11-25

Most of us are content to see ourselves as ordinary people—unique in ways, talented in others, but still among the ranks of ordinary mortals. Andrew Fischer probes our conditioned state by asking important questions: How should “ordinary” people respond when others need our help, whether the situation is a crisis, or something less? Do we have a responsibility, an obligation, to go that extra mile, to act above and beyond the call of duty? Or should we leave the braver responses to those who are somehow different than we are: better somehow, “heroes,” or “saints”? Traditional approaches to ethics have suggested there is a sharp distinction between ordinary people and those called heroes and saints; between duties and acts of supererogation (going beyond the expected). Fischer goes on to seek those standards by looking at the lives and actions of certain historical figures—Huscarl rescue, Martin Luther King, Jr., Dorothy Day, among others—who appear to be extraordinary but were, in fact, ordinary people. Heroes, Saints, and Ordinary Morality shifts the way we regard ourselves in relationship to those we admire from afar—that is, not only to emulate, but to engage with as well. Furthermore, it challenges us to actively seek the acquisition of virtue as seen in the lives of heroes and saints, to learn from them, a dynamic aspect of ethical behavior that goes beyond the mere avoidance of wrongdoing. Andrew Fischer sets a stage where we need to think and act courageously to lead lives of self-examination—even if that should sometimes provoke discomfort. He asks that we strive to emulate those who admire and therefore allow ourselves to grow morally, and spiritually. It is then that the individual develops a deeper altruistic sense of self—a state that allows us to respond as the heroes of our own lives, and therefore in the lives of others, when times and circumstances demand that of us.

South Carolina Women: - MaryJane Julious Spruill - 2010-01-25

This volume, which spans the long period from the late eighteenth century through the Civil War era, is remarkable for the religious, racial, ethnic, and class diversity of the women it features. Essays on plantation mistresses, overseers' wives, and other household laborers of the plantation era. The volume begins with a profile of the lovely and loquacious Elizabeth Allston Pinckney, and includes essays on the much-less-documented lives of poor white farming women (the Neves family of Mush Creek), free African American women, and other women from different walks of life. The religious, racial, ethnic, and class diversity of the women it features. Essays on plantation mistresses, overseers' wives, and other household laborers of the plantation era.
